The invasion of celebrity chefs continues

**Sushi Roku**—Also coming to the Forum Shops in the fall, this branch of the successful Los Angeles sushi bar just may challenge Nobu for sushi supremacy in our landlocked city. The menu will feature California sushi and such modern Asian cuisine as monkfish pâté wrapped in salmon and topped with caviar and *uni*, Japanese mushroom salad and mixed vegetable or seafood tempura. Whether the Vegas version will also become a celebrity haunt like Sushi Roku LA (Harrison Ford, Drew Barrymore, Claire Danes and Jeffrey Katzenberg are all fans) remains to be seen.
